

NOVADEKO

MODULAR HOME STANDARD INCLUSIONS MAY 2019

Structure

- New, purpose-built high cube containers.
- Heavy duty external steel framing, standard crane caster lifting points for shipping.
- External walls and roof panels are seam-welded, corrosion and weather resistant corrugated high strength steel (commonly known as Cor-Ten steel).
- Galvanised steel framed internal walls.
- Heavy gauge steel floor joists & bearers.
- Heavy gauge steel corner posts for bracing and loading capacity.
- Pressed steel seam welded roofing panels.
- Inbuilt gutters.
- Adjustable ventilating grilles.

External Finishes

- The outer modular carcass walls, roof and floor joists are painted in long life weatherproof paint.
- Double glazed tempered glass (5mm) to aluminium framed windows and glass sliding doors.
- Keyed locks to all external doors.
- Plywood to glass windows and doors for protection during shipping and transportation.
- Underslung drainage.

Insulation

- Thick layer of closed cell polyurethane insulation (R1.0) sprayed onto the inside walls and ceilings of the bare steel modular carcass.
- Specialised layered sheet of vapour control silver sisalation (R1.5) between the spray-on polyurethane and the adjacent internal steel stud, noggling framed walls and the top of the internal ceiling frame.

Internal Fit-Out

- Compressed FC flooring glued and screw fixed to steel floor joists.
- Vinyl planking floating floor (excluding wet areas).
- 12mm plasterboard (Drywall) lined walls throughout excluding wet areas.
- 3 coats of premium paint applied to internal walls.
- Fibre cement lined walls to bathrooms.
- 12mm plasterboard (Drywall) fixed to ceiling battens installed throughout including shadow line for architectural merit. Excludes bathroom ceilings.
- European Beech 68mm x 12mm architraves and skirting throughout (excluding wet areas) and to jamb-sets for door openings where applicable.
- Flush panel timber veneer internal doors are painted.
- Architectural Lever Series internal door furniture.
- 2-pak painted doors to robes (except walk-through robe), linen cupboards and laundry where applicable.
- Custom robe fit out including a bank of shelves, 3 drawers and top shelf with hanging rails.
- Built in overhead and side cupboards in nominated bedrooms as per plan.
- Custom built 2pac combination robe with 3 drawers, desk & overhead cupboards with LED lighting where applicable to design.

Kitchen

- Nova Deko square edged reconstituted quartz stone bench tops.
- Nova Deko gloss 2-pac finish to kitchen cupboard fronts including metal cabinetry handles where applicable. Cupboard doors are secured by tape for transport.
- Four drawer cutlery unit including Blum soft closing drawer runners.
- Feature single bowl kitchen sink.
- Ceramic tiled kitchen splashback, 600mm high to applicable designs.
- Provision for dishwasher including cold water and electrical connection points.
- Kitchen appliances (cooktop and oven).
- Hot water system (instantaneous single phase 40 amp).

Bathroom/Toilet

- Complete with sink, toilet, floor wastes, vanity, basin, taps and shower.
- Polyethylene pressure piping.
- 600mm blade screen or curtain to shower recess, as appropriate.
- Ceramic tiles to 1200mm high on walls and to 2100mm high in shower recess.
- Ceramic tiles to shower floor, fully waterproofed.
- Tapware:
 - Nova Deko Premium Series basin mixers where applicable.
 - Nova Deko Premium Series wall mixer to shower recess where applicable.
 - Nova Deko Premium Series kitchen mixer.
 - Nova Deko Premium Series ¼ turn washing machine cocks.
 - Nova Deko Premium Series ¼ turn cistern cocks to W/C's.
 - Nova Deko Premium Series shower rose on rail combo.

Note: all plumbing connections must be checked by purchaser's licenced plumber before connecting to water supply.

Electrical
